Cedarpines Park to see Road Improvements

San Bernardino -Supervisor Paul Biane and the Board of Supervisors gave the go ahead to purchase equipment and complete road repair work needed in Cedar Pines Park.

County Service Area 18 (CSA 18) maintains and operates approximately 20 miles of paved and unpaved residential roads in the mountains in Cedarpines Park, which is located west of Crestline in the San Bernardino Mountains.

In addition to work begun earlier this year, the Board of Supervisors is directing another \$100,000 toward asphalt and slurry work to repair roads damaged by the pounding rains earlier this year.

"It is imperative we complete the necessary road repairs in the mountain communities as soon as possible," said Supervisor Biane, whose district includes Cedarpines Park.

The Board of Supervisors also authorized the purchase of a wood chipper for use by CSA 18 staff in Cedarpines Park to increase the efficiency and reduce the cost of necessary tree trimming projects in the area.

“Purchasing a wood chipper and having county employees complete tree timing jobs will save the taxpayers money,” continued Supervisor Biane. “Moreover, it will also speed up the jobs which reduces the risks associated with slash.”

Since his election in 2002, Supervisor Paul Biane has served the communities of Cedarpines Park, Crestline, San Antonio Heights, Mount Baldy, Lytle Creek and Devore in addition to the cities of Upland, Fontana and Rancho Cucamonga.
